Mimic Pro Classic

Certificate of Completion

Completed: April 22nd, 2022

Congratulations! This certifies that Muhammad Moinuddin has completed Stukent's Mimic Pro digital marketing simulation. Students that use Mimic Pro get hands-on experience doing digital marketing. Throughout the simulation they manage an online ad campaign of roughly \$50,000. The end goal is to drive the highest revenues and profits. Round by round, students have reports so that they can analyze the data, and make data driven decisions about how to proceed. Without the effects of spending real money, they are able to test and try different strategies, and they're more prepared to work with real ad dollars than students without experience managing tens of thousands of ad dollars. They also have the chance to write and create email campaigns for targeted audiences.

When all is said and done, students that use Stukent's Mimic Pro simulation have gained significant experience doing:

- Keyword Research
- Data Analysis
- Writing Content
- Running A/B Ad Tests
- Creating Landing Page Wireframes
- Doing Basic On-site Search Engine Optimization
- Creating and Launching Successful Email Marketing Campaigns

This is a big achievement! Be sure to share this on LinkedIn and other social media! It could be the ticket to the rocket that launches your career.
